

DEAR NEIGHBOR,

# YOUR DOG IS BARKING

We know you may not be aware of this as you're away from your home. We love animals and would like to offer some suggestions before the HOA, animal control or police get involved with fines or worse, removal of your pet.

## Here are some ways to fix the issue:

**Ask for help:** Some neighbors may be willing to walk your dog mid-day for a small fee. You could also hire a pet sitter or dog walker to visit (this will help stop your pets from being bored all day).

**Bring Your Dog Indoors:** Pets are family and should have indoor access. There are secure, easy to install doggy doors available now.

**Natural Calmants:** *Rescue Remedy* and *Adaptil* are excellent ways to calm your dogs.

**Technology:** You can see & talk to your pets while you're away from home via cameras and treat dispensers. There are also many safe citronella-based barking collars available.

For more suggestions, read this article:

Thank you for your attention to this matter.
